

Atlantic Intracoastal Waterway Aids to Navigation Questionnaire

This survey is being conducted by the United States Coast Guard to gather information about navigation in and around the Atlantic Intracoastal Waterway from Cumberland Sound, Georgia to Matanzas Inlet, Florida, including St. Augustine Inlet. Specifically, the Federal Aids to navigation system is being evaluated to ensure the needs of the mariner are best met. Your voluntary participation will help toward providing a safe waterway.

Note: Please feel free to duplicate this survey and distribute it among other mariners who operate in the vicinity.

Name: _____ Tel: _____

Address: _____ Company/Affiliation: _____

What is your job title: _____

What type of vessel do you operate: _____

Length: _____ Draft: _____ Beam: _____ Displacement: _____
(If more than one vessel, list largest)

What is your homeport, and where else do you operate: _____

Do you travel on the Intracoastal Waterway, the open ocean, or both? _____

When do you operate on the ICW (day/night or both): _____

Where are the most dangerous hazards to navigation in the area: _____
